

KARAN GANDHI

Chennai, India — karananandgandhi@gmail.com — [Portfolio](#)
[GitHub](#) — [LinkedIn](#) — [LeetCode](#)

EDUCATION

Vellore Institute of Technology, Chennai B.Tech in Computer Science Engineering	2024 – Present CGPA: 8.28
SNBP International School, Pune CBSE Class XII	2022 – 2024 88.8%
Spicer Higher Secondary School, Pune ICSE Class X	2009 – 2022 94.5%

SKILLS

Languages: C++, Python, Rust, JavaScript, SQL, Go, C
Frameworks & Libraries: ROS2, React.js, Node.js, Express.js, MongoDB, FastAPI, Django
Tools: Git, Docker, Linux, WebSockets
Core CS: DSA, OOPS, DBMS, Operating Systems, Computer Networks, SLAM, AI/ML

EXPERIENCE & LEADERSHIP

Vector Robotics, Pune (Onsite) <i>Robotics Software Intern</i>	May 2026 – Jul 2026
- Engineered and optimized core robotics software modules utilizing ROS2 and C++/Python. - Implemented Simultaneous Localization and Mapping (SLAM) algorithms to enhance autonomous navigation - Developed high-fidelity Gazebo Harmonic simulations, designing complex URDF/Xacro models and configuring modern ROS2 control hardware interfaces with tuned rigid-body kinematics - Engineered an automated CAD-to-Simulation pipeline using Fusion 360	
CodeChef – VIT Chennai <i>Outreach & Sponsorship Lead</i>	Mar 2026 – Present
Organized competitive programming initiatives and technical events	
Google Developers Group – VIT Chennai <i>Open Source Member</i>	Nov 2025 – Apr 2026
Collaborated on community-driven open-source projects	
Gujarati Literary Association <i>Social Media & Outreach Lead</i>	Sept 2025 – Sept 2026
Led digital outreach strategy and engagement initiatives	

PROJECTS

Campus360 <i>WAMP, AJAX, WebSockets</i>	Jan 2026
- Built a centralized campus platform integrating forums, resources, real-time chat, and event reminders - Implemented low-latency real-time messaging using WebSockets	
At-Risk Students' Detector <i>Machine Learning, FastAPI, Django</i>	Dec 2025
- Developed an ML-based prediction system using Random Forest and K-Means clustering - Built backend APIs using FastAPI and Django for predictive model integration	
Personal Portfolio Website <i>HTML, CSS, JavaScript</i>	Oct 2025
Developed and deployed a responsive portfolio website featuring dark/light mode switching and optimized frontend responsiveness	

ACHIEVEMENTS

- Secured 96.23 percentile in JEE Mains 2024 with AIR 58,311 among 1.5M+ candidates
- Ranked AIR 7,914 in VITEEE 2024 and achieved 97 percentile in MET 2024
- Secured 4th place in Code N Conquer 2024 and 6th place in BitWars 2.0
